

Silicon Premium 1 & 2 (H₄SiO₄ + TE)

Silicon Premium 1 & 2 (H₄SiO₄ + TE) is a soluble silicon-based granular fertilizer containing NPK and beneficial nutrients. This 100% natural, eco-friendly and non-toxic fertilizer is specially formulated to help restore soil structure, stimulate plant growth, increases crop's quality and yield and enhance plant self-resistance to environmental stress, diseases and pathogens.

Both Silicon Premium 1 & 2 (H₄SiO₄ + TE) consists of natural nitrogen, phosphorous, potassium, soluble silicon - orthosilicic acid (H₄SiO₄), silica (SiO₂), magnesium, calcium and traces elements and it is suitable for blending mixed fertilizer, direct and foliar applications. Silicon Premium 1 (H₄SiO₄ + TE) is highly recommended for oil palm and fruit trees such as durian, mango, guava, and fruity vegetables such as cucumber, chilli, okra and others. Silicon Premium 2 (H₄SiO₄ + TE) is suitable for all crops such as oil palm, leafy and fruity vegetables, fruit trees, rubber, paddy, tea, turf grass and ornamental plants.

Packing: 25 kg

Silicon Premium Blended (H₄SiO₄ + TE)

Silicon Premium Blended (H₄SiO₄ + TE) is a blended granular fertilizers containing chemical NPK, soluble silicon and beneficial nutrients.

It is specially formulated to help restore soil structure, promotes healthy plant growth and increase yields and is good alternatives for providing the agriculture industry with effective solutions that will enhance absorption of NPK in plants.

It consists of chemical nitrogen, phosphorous, potassium and natural soluble silicon - orthosilicic acid (H₄SiO₄), silica (SiO₂), magnesium, calcium and traces elements.

We supply standard and offer customized fertilizers formulations that meet your requirements.

Packing: 50 kg

Tamira Foliar No. 1
(8:8:8 Amino + TE)

Tamira Foliar No. 2
(Hi-K Amino + TE)

Tamira Foliar No. 3
(Calmag Amino + TE)

All our Tamira Foliar liquid products range can be used for all crops and can it be applied to the foliage as foliar spray and to the soil as a drenching solution. All are 100% water-soluble products, nutrients immediately available to plants. Suitable to be used for all young seedlings and leafy vegetables such as vegetables crops, fruit trees, rubber, tea, tobacco, banana, jackfruit, sugarcane, coffee, oil palm, cocoa, turf grass, pasture etc. Packing: 10 litres

Royale Silicon (H₄SiO₄ + TE)

Royale Silicon (H₄SiO₄ + TE) range of fertilizers is specially formulated for household & landscaping requirement. We have formulation targeted at different types of plant requirement such as flowering, fruiting, leaves and grass.

Packing: 1 kg

Natural Silicon (H₄SiO₄ + TE) Formulation:
 For Fruit Trees: Royale Silicon 1 (H₄SiO₄ + TE)
 For All Crops, Ornamental Plants and Turf grass:
 Royale Silicon 2 (H₄SiO₄ + TE)

Chemical NPK Blended (H₄SiO₄ + TE) Formulation:
 For General Growth: Royale Silicon Blended 15-15-15 (H₄SiO₄ + TE)
 For Fruiting: Royale Silicon Blended 13-13-21 (H₄SiO₄ + TE)
